4. MIGRATION RULES & TRANSFORMATION LOGIC

Rule	Description
Class Assignment	All migrated documents assigned to `IBKOperationsDocument`
IBKLegacySourcePath	Populated with the full Livelink path of each document (e.g. `/Operations Archive (Legacy 2010–2019)/HR/Contracts/...`)
DocumentTitle	Preserved from Livelink metadata `DocumentName` field
IBKDocumentStatus	Set to `Archived` for all legacy documents

IBKConfidentialityLevel	Set to `Internal` unless source metadata contains `CONFIDENTIAL` — then set to `Confidential`
Retention Date	Calculated per IBK Retention Schedule — HR records: retention until 2030; Finance records: until 2029
Version Handling	Only the latest approved version migrated (Livelink current version = Content Cortex v1.0)
File Format	PDF/A-1b conversion applied to all MS Office documents; native files archived separately
Blank / Empty Documents	Excluded (1,240 empty stubs identified — not migrated)

---

5. MIGRATION QUALITY CONTROLS

Quality Check	Method	Target
Document count reconciliation	Pre/post row count comparison	100% count match
Checksum validation	SHA-256 hash comparison	100% hash match
Metadata completeness	Automated validation script	< 0.5% null field rate
Rendering quality check	Spot check — 500 random documents	> 99% renderable
Broken link check	Automated scan	0 broken internal links

---
